Re: Installing benches on the playground

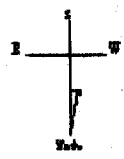

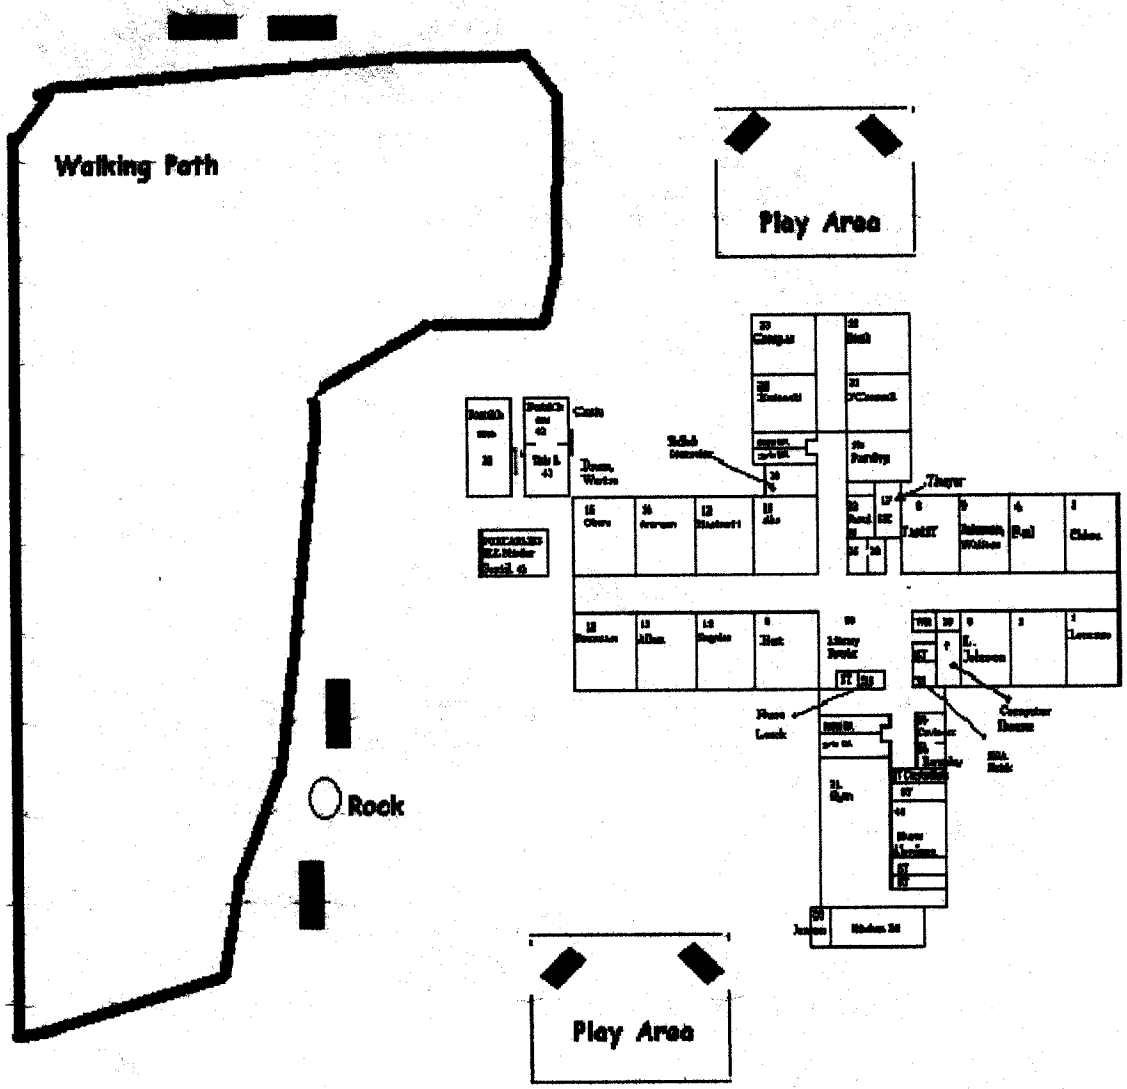

Linder Elementary School requests approval to install 8 park benches on our school playground. The Linder Elementary Parent Organization purchased these with PTSO funds. We have the benches stored at our school and the PTSO will pay a professional contractor to install them permanently. We will have 2 benches (4 altogether) by each of our two play areas and 4 benches placed around the walking path for a total of 8 benches.

Thank you for your consideration of our request.

OK - Wayne Hamms
