

PROGRAM EXPANSION PLANS RENAISSANCE PROFESSIONAL-TECHNICAL CENTER

The following programs are expanding, moving, or are headed for some important milestones in regards to certification credentials. Look for these changes over the next two school years.

Architecture & Construction Magnet – Coursework is provided in Architecture, Residential Construction (Carpentry), Masonry, Digital Home Technology Integration, and Construction Management. Each year, students design, build and landscape a Habitat for Humanity home for a needy family in the community.

Culinary Arts Magnet – This magnet features a student-run restaurant, *Café Renaissance*. The magnet is on track for becoming an American Culinary Federation (ACF) Nationally Certified Culinary School by 2011.

Pre-Engineering Magnet – Scheduled to begin in 2010. This highly successful program was initiated at Mountain View High School and prepares students for careers in Engineering and Engineering Technology.

Law, Public Safety & Security Magnet – Scheduled to begin in 2010, this magnet will feature coursework in Law, Fire & Emergency Services. Discussions are underway with the Idaho POST to share resources.

Information Technology Magnet – Scheduled to begin in 2010. This magnet will provide coursework leading to CompTIA Certifications for employment in the information technology industry. The district is currently paying for a limited number of students to take IT courses in the Boise School District.

Health Science Magnet – Scheduled to begin in 2010. This magnet will house the district's Certified Nursing Assistant (CNA) program and other specialty programs in Health Professions through a cooperative agreement with Idaho State University.

*In addition, **Professional-Technical English** will be added to the 2009-10 course offerings (pending board approval) for students who are enrolled in a PT course/program at Renaissance Prof-Tech Center. Students will learn communication skills needed for successful workplace communication including writing and reading manuals, analyses, reports, and other workplace documents, as well oral communication skills.*
