Joint School District No.2 Student Science Safety Contract.

Science is a hands-on laboratory class. You will be doing many laboratory activities, which require the use of hazardous chemicals. Safety in the science classroom is the #1 priority for students, teachers, and parents. To ensure a safe science classroom, a list of rules has been developed and provided to you in this student safety contract. These rules must be followed at all times. Two copies of the contract are provided. One copy must be signed by both you and a parent or guardian before you can participate in the laboratory. The second copy is to be kept in your science notebook as a constant reminder of the safety rules.

If the parent/guardian of a student or a student refuses to sign the Student Science Safety Contract then that student will not be permitted in any science laboratory situation where chemicals are used.

The student will be assigned alternate assignments to make up for the lack of lab grades due to not participating in the laboratory assignments. The alternate assignments will be done in the library or with the safe school assistant. The alternate assignments will be paper pencil assignments and not laboratory based. The science teacher will assign and grade the alternate assignments. The alternate assignments will cover the same Idaho State Standards that are covered in the laboratory experiment.
